Brighton Bar & Beverage Menu 2025

brightonresort.com

BAR AND BEVERAGE

If you are considering beer, liquor or wine for a function please be aware that Brighton personnel must provide and serve all beer liquor and wine. Our servers are trained to serve responsibly and all decisions made at the event by the bartenders are final.

All bar service must end one hour prior to the scheduled end of the event. Extensions of service time at the event are at the discretion of the bar service team.

Brighton EVENTS

Brighton offers three different types of bar service.

> The first and most popular style we offer is custom bars. Custom bars allow the client to work with our beverage director and create a unique menu that can offer cost certainty and simplicity of service.

> The second style is hosted bars where the client will pay for the bar tab and all associated fees and service charge. At hosted bars the attendees do not pay for drinks and no point of sale system will be set up. Brighton will use our standard menu for hosted bars.

> The third type of bar service is a charge bar, charge bars are where the client only pays the set up fees and Brighton charges guests for their beverages.

All selections will be made by the Beverage director, special requests will be considered on a case by case basis.

Bartenders and alcohol servers will be allowed to accept tips and put out tip jars at either type of service. If you would like to have the service staff not accept gratuities we will gladly add an automatic gratuity to any hosted or charge bar.

Gratuities and service charge are separate charges. All styles of bar service will be charged plus tax and a 22% service charge in addition to the prices listed below.

Brighton will determine the amount of staff necessary for your bar or beverage service. This is solely at our discretion and will not be negotiated or altered based on budgets. The safe and responsible service of alcohol and all guests at Brighton is paramount.

Custom Bars

Based on the guest count and desired menu a completely custom menu is created that will include a set number of drinks based on the guest count and all set up costs included in one lump sum.
